

## ***RSMP Effectiveness Studies Workshop 2***

May 6, 2014 from 9:00 am to 12:30 pm  
Renton Community Center  
1715 SE Maple Valley Hwy, Renton, WA 98057

### ***Background, purpose, and desired outcomes:***

A total of 23 pre-proposals for Regional Stormwater Monitoring Program (RSMP) Effectiveness Studies were narrowed to 12 that will be discussed today. The purpose of this workshop is to learn more about each of these proposals and the results of a survey of permittees as to which proposals are of most interest. Project proponents will be asked how they will address technical or other concerns, or make findings more relevant to permittees.

At the end of this workshop participants will know what studies are recommended for RSMP funding, and an approximate schedule for moving forward. The recommendation will be permittee driven, but we will hear what all participants think. The recommendations will go to the PSEMP Stormwater Work Group for approval. The SWG's recommendations will be submitted to Ecology for the contracting processes to begin.

Please come prepared to make the workshop a success. Arrive early, having familiarized yourself with the proposals; we will not provide paper copies of the proposals. Consider how you would allocate the \$6M funding, paced at \$1.5M per year. Write your comments and ideas down in advance. Bring business cards. Thank you for participating!
